

World of Change

iTeach for Tomorrow

Morning Workshops 9:00 AM - 12:00 PM

A - 1 (A101) Student-Centered Activities

Ruby Costea, McDaniel College & Alice Zhang, Baltimore City

What are effective teaching strategies in classrooms of the 21st century? How do students learn and retain knowledge? What are student-centered classrooms? These and many other questions will be addressed in this session. Participants will learn strategies using technology for creating a student-centered classroom! Presented in English; relevant for all languages.

A - 2 (A103) Creating in the Prezi Perfect

Deborah Espitia, Howard County

Have your PowerPoint slides begun to limit your creativity? Want a new way to present your ideas? Come learn about Prezi (prezi.com). This web-based tool is a whole new way to create presentations – all for free! Participants learn the basics of this new presentation tool and walk away with a variety of application ideas. Presented in English; relevant for all languages.

A - 3 (E161) The Computer Lab in the Digital Age

Kathleen Pepin & Karin Radhe, Howard County

We will show a good cross section of activities that teachers can make, link to, or even link to and change, providing interactive, self-correcting practices for their students. In addition, we will guide them in making podcasts for listening comprehension activities as well as oral assessments, such as those needed for the AP exam. Presented in English; relevant for all languages.

A-4 (F176) iTeach Tintin

Claire Kew, Salisbury University

Did you grow up reading Archie and Veronica, Wonder Woman, Garfield, or The Far Side? Come discover, or rediscover, the Belgian francophone classic: Tintin! Master the vocabulary of the "ninth art," discover ways to enhance your current language curriculum with comics, and leave this French immersion workshop ready to engage your students in an innovative class project: the analysis of a page from an album. Presented in French with examples in French.

A-5 (F173) - Visual Literacy: Visuals to Aid Comprehension & Communication

Ruth Malone, Wicomico County & Arlene White, Salisbury University

What is Visual Literacy? How can Visual Literacy complement instruction in a proficiency-based classroom and support high stakes testing? Come and engage in magical activities that will engage your students at all levels and for all languages. Highly interactive session with extensive resources provided. Presented in English with examples in French and Spanish.

Afternoon Workshops 12:00 PM - 3:00 PM

B-1 (A101) - Window into Technology-Enhanced Games for Your Classroom

Bertrand Tchoumi, Morgan State University

In this session, participants will learn how to use Powerpoint to create technology-enhanced games to support foreign language instruction. They will discuss creative ways to utilize and integrate those games in order to increase students' motivation and participation and enhance learning. **Participants are encouraged to bring a flash drive with several pictures and multiple choice questions in the language they teach.** Presented in English, examples in French.

B-2 (A103) - Creating Interactive & Engaging Lessons for the Promethean Board

Katherine Baird, Montgomery College

Do you have a Promethean Board but are still using it to show PowerPoint presentations? Do you want to learn how to create interactive and engaging activities for your students using ActivStudio? In this session, you will not only see examples of activities and how to create them, but you will walk away with something new to use in your classroom. Some experience with ActivStudio recommended. Presented in English with examples in French

B-3 (G184) Make Your Students the Authors: Software to Live Up Your World Language Class

Laura Franklin, Northern Virginia Community College

There are many free, easy to use materials on the Internet that can be used by students to show what they know in the target language. With these tools, videos, comic strips, word clouds and audio/ visual presentations can be created to provide a novel and engaging way to practice the target language. Presenter will demonstrate how to use VoiceThread, Animoto, Wordle, XtraNormal and Toondoo. Presented in English; relevant to all languages.

B-4 (F173) Diving Deeper into Differentiation

Deborah Espitia & Leslie Grahm, Howard County

Go beyond the shallow waters of differentiation basics into deeper understanding. Through demonstrations and simulations, participants will explore planning for differentiation, differentiated assessment, and more complex structures for applying differentiation in the classroom. This interactive workshop is designed for participants who are already familiar with the basic principles of differentiation. Presented in English; relevant to all languages.
